Cut an A4 sheet in half widthways.

Create guidelines by folding each piece in half, half and half again (widthways). Open up.

Refold with about 1cm concertina (zig-zag) folds.

Repeat with the other piece.

Glue the two pieces together to make one long, folded strip.

Refold and tie a piece of string around the centre.

Open each side of the fan in turn, gluing the edges together to form a circle.

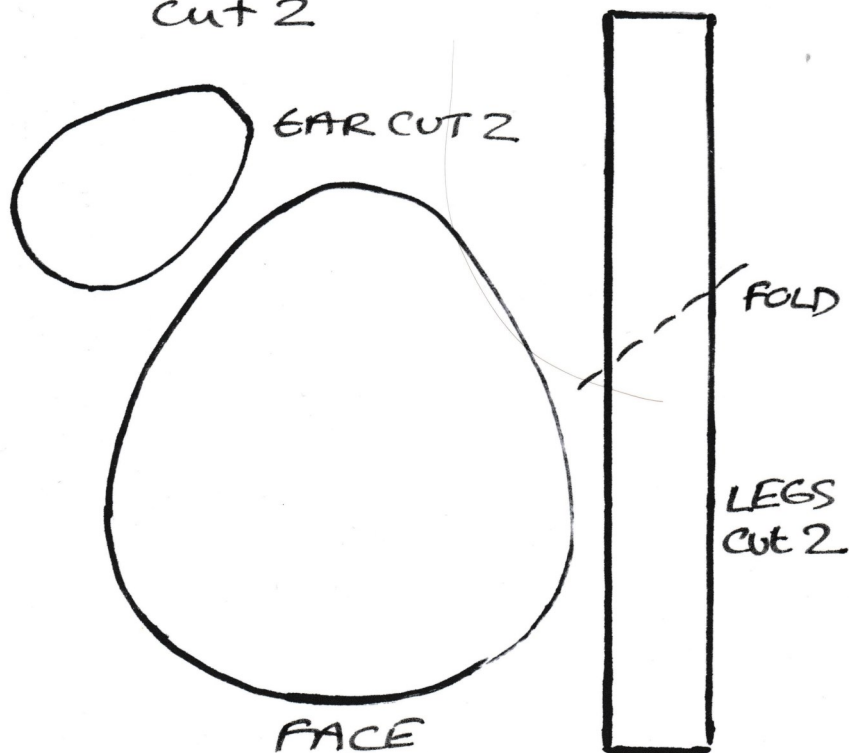

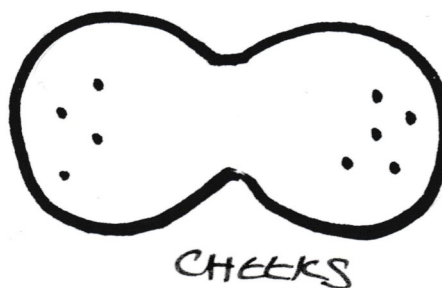

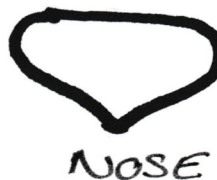

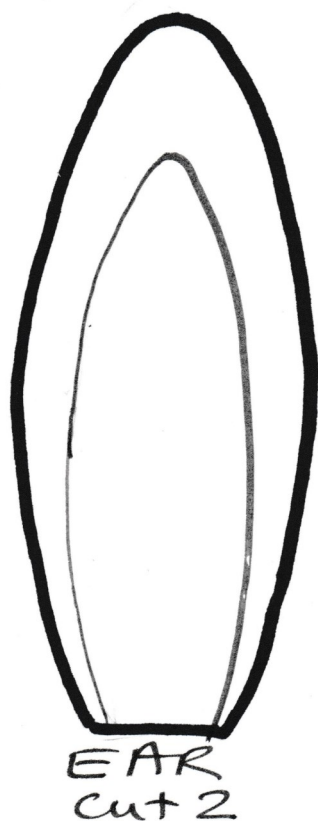

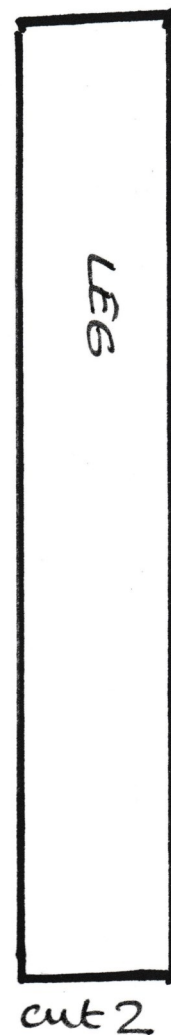

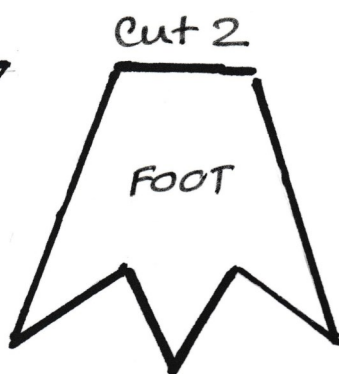

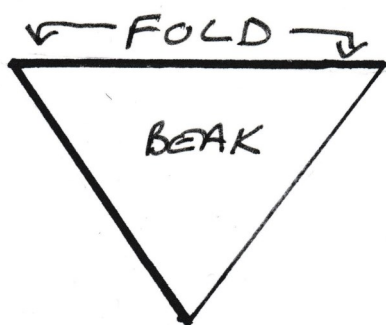

Glue additional pieces of paper or other craft materials in place to complete your character.
